Principal’s Message

Value of the Week – Show Understanding Tolerance and Inclusion

Understanding is using your mind to think clearly, paying careful attention to see the meaning of things. An understanding mind gives you insights and wonderful ideas. An understanding heart gives you empathy and compassion for others. Understanding is the power to think and learn and also to care.

Being Tolerant is accepting differences. You don’t expect others to think, look, speak or act just like you. You are free of prejudice, knowing that all people have feelings, needs, hopes and dreams. Tolerance is also accepting things you wish were different with patience and flexibility.

Inclusiveness helps us work and live together peacefully. We feel connected with each other and all living things. We value the special individuality of each person as a gift, not as a reason to fight or be scared. With inclusion we accomplish more together than any of one of us could alone. ANZAC DAY

This year our school had representatives attend the Cleveland Dawn Service, Community March and Morning Service as well as the morning service at Coochiemudlo Island. Our School Captains laid a wreath at the Cleveland Community Service after a contingent of 37 students marched behind our school banner. A number of our students also marched with their community group including Scouts and Lifesavers and one student marched in school uniform with his relative who is a veteran.

We held our school service this week with our guests being from Redlands RSL and State Parliament as well as Mrs Leanne Mills, the President of our P&C Association and Mr Malcolm McLaren, the Bagpipe Player.

I would like to congratulate our School Captains, Maddie, Tessa, Derin and Jacob, who lead our School Service in a very confident and respectful manner.

It is always pleasing to see so many community members attend our service, including grandparents, parents, friends and other community members. Their respectful comments make us feel very proud of the tradition we have created.

Congratulations also to Henry who recited a poem, Put it There Pal, written by his brother in 2014, about their grandfather.
**Term 2 Attendance**

How close to 100% attendance can you make it in Term 2?

Very shortly you will receive your child’s Term 1 Attendance Report. This report will indicate the percentage of Term 1 that your child attended school. Obviously the closer to 100% that your child can be at school, the better for their learning.

**BayView Facebook**

Our Facebook page has commenced. Please search for our page and like it to receive our feeds. The main purpose of our page will be to add to the communication process that we have in our school. We will promote upcoming events and recognise school achievements with non identifying information. For 2016, in specific cases where individual photos or names wish to be used we will seek parental/caregiver permission.

All students currently have a Media Permission Form which has been completed on enrolment, if your circumstances have changed and you wish to edit any restrictions, please advise Corporate Services. In 2017 everyone will complete a new Media Permission Form that will include our Social Media platform.

If you have any concerns over the content that is uploaded on our Facebook page at anytime, please contact me and share your concerns.

**Safe travel to and from School**

Now is a great time to talk to your children about the safe strategies of getting to and from school. Riding, walking or going in the car, they all have risks. Please discuss them with your child.

**Year 6 Camp**

I was lucky enough to visit the Year 6 students on camp at Tallebudgera last week. I was very impressed with the range of activities our students were able to engage with. Equally impressive were the students of BayView and how they worked within their team to develop leadership and team working skills. I saw students showing a whole range BayView Values – working with other, encouraging and supporting friends, challenging themselves to overcome fears and having a great deal of fun. Congratulations to all of the students who attended on their behaviour and also how they took up the challenge to make the most of every opportunity offered to them at camp. Congratulations and a huge thank you also to the staff who attended for the week – Mr Bennett, Mr Gooding, Mr Avis, Miss Hale and Miss Holzheimer.

**Oral language**

Research shows that children who have an extensive vocabulary and strong oral language development generally perform well and school and are successful learners.

The SPEAK program is all about developing Oral Language in children. It began two and a half years ago with the establishing of partnerships between Cleveland State School and the Cleveland Council Library. This has now expanded and encompasses many stakeholders whose focus is on the development of language in young children. There is also a strong emphasis on giving valuable information to parents and carers through the Chatter Matters evenings and workshops. The work of the SPEAK program has been recognised by other councils and schools with a view to replicating it in other areas. Department of Education, Training and Employment as a joint initiative with Queensland Health and Redland City Council have recognised the value of SPEAK by developing a free app. SPEAK was also a State Winner at the recent Showcase Awards for Excellence in Schools.

**SPEAK App**

The SPEAK (Speaking Promotes Education And Knowledge) oral language app has been developed to help develop children’s speaking and listening ability. Research supports the importance of oral language, not only as the foundation for the development of literacy skills but also a strong indicator of later reading, writing and overall academic achievement. Children with a language impairment are six times more likely to have a reading problem than children without. It therefore makes sense to be proactive in the early years of a child’s life and the SPEAK app helps
this happen. SPEAK provides lots of fun, free activities, ideas and information for parents, carers and educators to support and nurture oral language development in children from 0–6 years of age. The information and activities were developed by the department with the help of speech pathologists, educators and health professionals.

How does it work?
It is a user-friendly app that aims to help parents, carers and educators teach their children oral language skills from a young age. The app supports adults to develop an understanding of the importance of oral language for life success, and provides ‘on the go’ parents with ideas and activities to encourage and foster talk in their young children. It can also be used in educational environments for professional learning opportunities.

The app is broken into five age areas, (0 months+, 13 months+, 2.5 years+, 3.5 years+ and 4.5 years+) each with ten talking points. In each age area there are four sections which all provide free activities to enhance and encourage oral language in young children. The four areas include:
- social
- connecting
- literacy and numeracy and
- play.

Target audiences
The app is aimed at parents and carers, grandparents, educators, health professionals and the general public, and has already been downloaded by people across the world. SPEAK is for everyone who wants the best start in life for their child and provides a fun, convenient way to make chatter matter!

The SPEAK app is available for free download from the iTunes store and Google Play and compatible is with apple and android devices.

For The Love of Art

Art Club is held every Tuesday at first break in the gated space between Targeted Learning and PCYC.

It is offered to all students in years 4 to 6 as an opportunity to get creative, have some fun and chill out with like-minded students.

Currently, Art Club students have been busily making props for the up-coming school musical Shrek Jr. and this will continue to be our focus for the rest of Term 2.

It is a pleasure working along side such happy and industrious students each Tuesday. We love hearing the students’ ideas and seeing their concepts come to life.

So…..if you are interested in getting creative come on in and give it a go!

Rainbow Relaxations Term 2

Rainbow Relaxations is very excited to inform the wonderful community at BayView State School that we currently have spaces available.

As there are limited spots within each class, it has been a little tricky for new people to come on board. This Term is a great time to come along and try a class and offer your child the opportunity to experience a place of focus, joy, peace and calm - through learning mindfulness combined with the use of the colours of the Rainbow.

The classes are held after school on a Monday in the Music room at BayView State School.

The Rainbow Class (age 5 - 8) 3-4pm
The Sunshine Class (age 9 - 13) 4-5pm

This is an afterschool activity where your child will attend once and will want to continue for the rest of their school days 😊 I’m not joking, that is what the kids say to me!

For more details or to book your spot today please call Marie 0402416132 or email: rainbow.relaxations@live.com

I look forward to meeting you very soon 😊 Marie
